

Cope Foundation provides respite care and short breaks to over 200 people we support and their families. Respite services are provided in dedicated respite beds and houses across Cork city and county.

Other short breaks are provided through our Home Share and Home support schemes. In addition Saturday clubs and summer camps for children and adults are also organised during the year.

Our latest fundraising initiative is aimed at providing additional respite and short break places as over 120 people are seeking to access this vital service at this time.

Plans are underway to create a new dedicated respite and holiday home facility in Skibbereen and we are also seeking to expand our Home Share scheme where families are asked to invite a person with an intellectual disability into their home for a break away from home.

The continued generosity of the Cope Foundation Golf Alliance will go a long way to seeing this project come to fruition and its donation received on Monday 13th February last will go directly to this project.

On behalf of everyone involved in Cope Foundation but most especially on behalf of the 2350 people and their families supported by the Foundation I would like to thank the Cope Foundation Golf Alliance and its members for their kind and generous donation and ongoing support of the organisation.

Sean Abbott Chief Executive.
