**Thank you for your support!**

Dear Brendan,

I am writing to thank you for your very kind donation of €43,500.00 to Cope Foundation which we received recently. Please accept this letter as your official receipt for same. May I take this opportunity to thank you and the Golf Alliance for another incredible year of fundraising. Your kindness and generosity means so much to us.

At Cope Foundation, we support people with an intellectual disability and/or autism to live a life of their choosing, connected and participating in their communities. Each year, we aim to raise **€1 million** through fundraising to help our organisation deliver more for the 2,800 people we support throughout Cork city and county.

Support like yours helps us to empower people to live '*Your Life, Your Way*'. Fundraised income helps us to achieve so much - it helps us to purchase houses so that people can live more independent lives in their community; develop person-centred assistive technology projects which promote independence, control and choice; fund activities and experiences so that people can try new things, visit new places and make connections; as well as purchase much-needed resources and equipment for our day and residential centres.

We are working so hard to support people to live '*Your Life Your Way*' and we cannot do this without the help of generous people like you. Thank you so much for reaching out and supporting us, you are so kind.

Thank you,

---
